PROFILE

Hi there, I am Amjad Ali — a passionate Computer Science graduate with a strong focus on Full-Stack Web Development, Business Analysis, and Project Management. I am dedicated to building modern, user-centered, and scalable web applications while maintaining high standards of quality, innovation, and professionalism. My technical expertise includes HTML, CSS, JavaScript, React.js, Next.js, Firebase, Java, and modern web development technologies. I have a solid understanding of software engineering principles, data structures, algorithms, database management, and Agile development methodologies. I enjoy transforming ideas into practical digital solutions that are efficient, reliable, and aligned with both user needs and business objectives. In addition to my technical background, I have a growing interest in business strategy and project management, allowing me to bridge the gap between technology and organizational goals. I value teamwork, clear communication, structured planning, and continuous improvement to ensure successful project delivery. I am committed to lifelong learning and constantly strive to expand my knowledge, enhance my technical skills, and stay up to date with emerging technologies. My long-term goal is to become a versatile technology professional who combines software development, business insight, and project management expertise to deliver innovative solutions that create meaningful impact and lasting value.

EXPERIENCE

2024-PRESENT
SYSTEM LIMITED

FRONT AND BACK-END DEVELOPER

Designs and implements engaging user interfaces using HTML, CSS, and JavaScript, focusing on creating intuitive and responsive web experiences. Develops server-side applications and databases, ensuring smooth functionality and performance of web applications, with expertise in languages like Python or Node.js.

2022-2023-PRESENT
NETSOL

SENIOR UX DESIGNER

Passionate about crafting seamless digital experiences, employing user-centered design methodologies to create intuitive interfaces and elevate user satisfaction. Proficient in research, wireframing, and prototyping to deliver innovative solutions tailored to user needs."

2020-2021-PRESENT
ORACLE

WEB DESIGNER

Dedicated to translating concepts into visually stunning and functional websites. Proficient in HTML, CSS, and JavaScript, with a keen eye for design aesthetics and user experience. Skilled in creating responsive and intuitive interfaces that enhance user engagement and satisfaction."
